PROFILE

Junior Full-Stack Developer trained at Le Wagon with hands-on experience building web applications using modern architectures and AI-assisted workflows. Expertly integrating AI agents, automated prompting frameworks, and Cursor into daily development cycles to optimize code delivery, debugging speed, and scalable design patterns. Career changer with 10+ years of high-pressure leadership experience in hospitality, bringing exceptional client communication, radical ownership, agile team coordination, and sharp problem-solving skills to technical engineering environments. Seeking a first software engineering opportunity in Portugal.

TECHNICAL SKILLS

Languages: JavaScript, Ruby, SQL, HTML, CSS
Frameworks: React, Svelte, Redux, Ruby on Rails
Tools & DBs: Git, GitHub, PostgreSQL, Convex, REST APIs, Bootstrap, Vercel, Cursor, AI Agents

PROJECTS

Spotify Clone

Music Streaming Web Application

- Built a responsive web application replicating core music streaming features, including music playback, dynamic search, and playlist management.
- Leveraged AI-assisted workflows and Cursor to accelerate prototyping, design modular components, and optimize state management performance.
- Implemented state management for track control and continuous audio playback for a seamless user experience.

Stack: React, Redux, JavaScript, CSS, HTML, REST APIs

Daily Bites

Full-Stack Food Recommendation Platform

- Collaborated in an agile team of 3 developers to design, build, and deploy a custom food recommendations platform.
- Responsible for backend logic, database modeling, secure user authentication, and responsive frontend implementation.

Stack: Ruby on Rails, PostgreSQL, JavaScript, HTML, CSS, Bootstrap

CarBnB

Marketplace Web Application

- Developed an Airbnb-inspired web marketplace featuring full CRUD operations, multi-table database relationships, and account management.

Stack: Ruby on Rails, PostgreSQL, JavaScript, HTML, CSS

PROFESSIONAL EXPERIENCE

Assistant Restaurant Manager

April 2024 – Present

Taberna Sal Grosso

- Manage complete front-of-house operations, staff schedules, floor workflow coordination, and service standards.
- Handle core managerial responsibilities, including inventory control, supplier negotiation, and conflict resolution.

Head Cook

2022 – 2023

The Backyard

- Optimized kitchen workflow routines, managed team deployment, and coordinated ingredient supply logs.

Head Cook

2021 – 2022

Choco Fritto

- Oversaw daily kitchen production, synchronized team workflows, supervised inventory control, and sustained high quality standards.

Assistant Restaurant Manager / Kitchen Management

2013 – 2021

Hamburgueria da Parada

- Supported end-to-end operational planning, staff management, customer communication, and continuous process enhancements.

EDUCATION

Full Stack Web Development Bootcamp

2023

Le Wagon

9-week intensive immersive bootcamp covering Ruby on Rails, JavaScript, SQL, Git, GitHub, and Agile methodologies.
